

Volunteer Opportunities at the World Famous Bear River Migratory Bird Refuge

In Scenic Northern Utah

The U.S. Fish and Wildlife Service is the principal agency of the Federal Government charged with the responsibility for conserving, developing, utilizing and protecting the Nation's fish and wildlife resources.

There are over 550 National Wildlife Refuges within the Fish and Wildlife Service containing approximately 99 million acres.

Bear River Migratory Bird Refuge was established in 1928 and provides feeding, resting, and breeding habitat for millions of birds annually. American avocet, black-necked stilt and white-faced ibis nest here by the thousands!
